

Metal Working Fluid Management

Presentation by European Filter Solutions at

**The National Fluid Power Centre,
Worksop, Nottinghamshire S81 7HP**

**Wednesday 2nd March 2022
9:30am – 3:00pm**

Why not join us at the National Fluid Power Centre on the 2nd March 2022 (or via Zoom) and learn about how cost savings can be made by implementing a metal working fluid management system?

Joining European Filter Solutions will be speakers from Alfa Laval, Optimum Oils and Eclipse Magnets.

Some of the topics being discussed are as follows:

- **HSE requirements for cutting fluids and how to remain compliant**
- **How to extend coolant life to save money.**
- **Benefits of cost effective filtration**
- **Future developments – will biocides be needed?**

A free lunch will be provided on the day for all attendees.

With speakers from:
